

Know the common misconceptions about cholesterol

Is it fact or fiction?

Cholesterol can be both good and bad. That's why it's important to learn the facts about cholesterol, how it can affect your health and how to manage your blood cholesterol levels.

Beware of the following misconceptions about cholesterol:

MYTH

Choices about diet and physical activity are the only contributors to cholesterol levels

MYTH

Using margarine instead of butter will lower cholesterol

MYTH

Taking medication for high cholesterol means not having to worry about what you eat

MYTH

High cholesterol is only a man's problem

MYTH

You don't have to have cholesterol checked until you reach middle age
